Quarrel Erupts Over Proposed Labor Bill

WASHINGTON (AP) — A quarrel erupted today over the Senate labor bill, described by its backers as aimed at corruption in labor unions but pronounced completely ineffective by Secretary of Labor Mitchell.

In the wake of Mitchell's criticisms:

1. Sens. John F. Kennedy (D-Mass.) and Irving M. Ives (N.Y.), sponsors of the bill, made a point-by-point reply at a news conference. Kennedy said Mitchell's statements were inaccurate and misleading. Ives labeled them uncalculated, utterly so.

2. Republican Leader William F. Knowland of California said he believes most Senate Republicans will back some necessary and desirable amendments.

3. Sen. Pat McNamara (D-Mich.), a Labor Committee member and a member of the Finance Committee, issued a statement saying he objected strenuously to a provision that would require use of secret ballots in the election of union officials. He said a federal law of this kind would violate the very essence and meaning of democracy.

4. Sen. Barry Goldwater (R-Ariz.), another committee member, said in a statement that the bill will not cure the abuses exposed by the Senate Rackets Investigating Committee headed by Sen. John L. McClellan (D-Ark.). He said he was surprised that McClellan has loaned his assistance to the passage of a measure that falls so far short of his own recommendations. McClellan has endorsed the bill.

5. Sen. Karl E. Mundt (R-SD), a member of the Rackets Investigating Committee, told reporters he regards the bill as a very inadequate and hasty job, motivated more to meet a calendar date than to get a job done. The Senate Democratic leadership had promised earlier in the session that a labor bill would reach the Senate floor by June 10.

At the Labor Department, it was announced there would be an additional statement and further analysis of the defects of the bill. Mitchell's statement was released here Monday night.

Union Treasurer Is Arraigned

EL DORADO, Ark. (P) — Union County Treasurer Perry Long today waived arraignment before Circuit Judge Gus W. Jones on a charge of unlawfully using public funds and a plea of innocent was entered on behalf of the suspended official.

Jones set June 23 for trial of the case. The Union County Grand Jury yesterday indicted Long on the felony charge. Earlier the grand jury had indicted him on misdemeanor charges of misfeasance, malfeasance and nonfeasance of office.

The treasurer, who lost both legs in World War II, told police that he was bound and gagged and robbed of about \$22,000 while alone in his office last April 19. An audit revealed that \$22,538.32 was missing.

Long posted a \$500 bond after the first indictment was returned and yesterday posted a \$2,500 bond on the felony charge.

Trial of Long on the earlier charges also has been set for June 23. Jones said Long probably would be tried on the felony charge first.

Burglars Carry Off Safe and \$3,000

BENTON, Ark. (P) — Burglars juggled a 750-pound safe containing \$3,000 in cash from the offices of Saline County Motors here early today, police reported.

Officers said the theft was discovered by James Westbrook, one of the owners of the firm, when he went to work about 8 a. m. Westbrook said the safe contained about \$3,000 in checks besides the currency. No trace of the safe was found.

Window panes in the rear of the building had been smashed and officers speculated that the burglars entered through the window, dragged the safe into an alley and loaded it aboard a vehicle.

Group Seeks Way to Get More Tax Cash

LITTLE ROCK (AP) — The Revenue and Taxation Committee of the Arkansas Legislative Council met today to study two matters.

One relates to a provision in the use tax law which exempts from the levy property used in manufacturing and processing plants and that used in public utility plants.

The use tax corresponds to the sales tax. It is imposed on goods purchased outside the state. Sponsors of the study said there is no such exemption in the sales tax law and that this makes for discrimination against Arkansas concerns.

The other proposal sought to find a "more equitable method" for collection of the personal property tax on intangibles. The constitution says that intangibles — stocks, bonds and money — are taxable at the same rate as other property.

A report from the council's research staff said the law is not followed strictly and that such a rate would be confiscatory.

Insurgents Are Going Against Gen. DeGaulle

By DAVID MASON

ALGIERS (AP) — The insurgent Committee of Public Safety rebelled today against Premier de Gaulle's orders to get out of government.

The committee issued a communique opposing De Gaulle's plans for local elections in Algeria within one month and demanded an end to the present system of political parties in France.

The communique was issued with the notation that it had been approved by Gen. Raoul Salan, who was given full civil and military powers in Algeria by De Gaulle.

De Gaulle last Friday, on a dramatic trip here, called for the committees to turn their efforts toward unifying the Arab-Berber and European populations in Algeria.

The committee seized control in this North African territory May 13 and demanded De Gaulle be returned to power in France. Some committee members snarled on De Gaulle, however, when he ignored the insurgents in forming a Cabinet.

Instead, De Gaulle called in many of the leaders of the political factions dividing France.

The 73-man committee also demanded sweeping changes in the administration of Algeria to eliminate all barriers with metropolitan France. These include the demand for the abolition of all customs and visa requirements, the institution of one currency for the two areas, and the abolition of all separate administrative set-ups such as special ministries for the Sahara.

The measure of administrative barriers would be in line with De Gaulle's stated policy of making an "Arab and European" Algeria completely equal in the eyes of the law.

Despite the break with De Gaulle's policies, the committee still said it supported him personally.

Youths Guilty of Beating a Teacher

NEW YORK (P) — Three teenagers were convicted Monday of the baseball bat assault on a teacher who tried to protect his class of 35 boys and girls from robbery in a park.

A fourth teenage defendant was acquitted. All four are Negroes. One of those convicted, Kenneth Swanson, 16, was sent to Bellevue Hospital for mental examination as the trial ended in Bronx County Court.

Because of the boy's erratic behavior during the trial the prosecutor joined a defense lawyer in requesting Judge William Lyman to have the boy examined.

Sentencing of the three was set for July 11.

Ralph Boone, 16, was acquitted on all counts in the indictment.

The attack took place in Crotona Park in the Bronx last March 24. The teacher, Arthur Santos, 38, of the Bronx Community School had taken the pupils to the park to play baseball.

Santos, a ministerial student, was punched, kicked and hit with a baseball bat when he tried to protect his charges.

The attackers were accused of robbing his class members and stealing a dime, two pens and a pencil from one of the pupils, Robert Perez, 13. The boy was struck.

Swanson and Richard Curtis, 17, were convicted of the assault on the teacher, the assault on the pupil, robbery and grand larceny. They could be sentenced to up to 45 years in prison.

Wayne Downing 17, was convicted only of assault on the teacher. He could get up to five years.

Gen. Would Split French Parliament

By GEORGE MCARTHUR

PARIS (AP) — Premier de Gaulle reportedly favors cutting the French Parliament in two, with a weakened National Assembly for continental France alone and a more powerful Senate for all of the French Union.

De Gaulle won the power last week to draft a virtually new constitution for France and submit it directly to the voters. He is known to favor making the Senate the strong body and limiting the Assembly's power—the opposite of the present French system.

He discussed his views on constitutional reform with a delegation of the French Catholic Union of Christians today. He assured them he wanted workers to have a larger voice in the legislative system, Secretary General George Levard reported.

As De Gaulle talked with workers' representatives, his government announced that wholesale prices continued the inflationary rise which is one of his main problems, with food prices rising 8.8 per cent in May.

Economic affairs were the topic of one Cabinet meeting which De Gaulle called.

Paris buzzed with rumors that a meeting of De Gaulle, President Eisenhower and British Prime Minister Macmillan was in the offing, but diplomats generally discounted them. The rumors were touched off when U.S. Ambassador Amory Houghton called on De Gaulle prior to leaving for the United States, where Eisenhower is conferring with Macmillan.

De Gaulle's proposal for Algeria, Gen. Raoul Salan, claimed a bright spot in the North African troubles. He said in an interview that about 10,000 rebels have defected to the French since the nationalist rebellion for independence began in Algeria 42 months ago.

French authorities said 501 rebels were killed last week and 123 were captured. For three days last week De Gaulle toured Algeria calling for reconciliation of the rebels and the French.

Dulles Declares Inspection Posts Key to Any Plan

WASHINGTON (AP) — President Eisenhower today proposed to Soviet Premier Nikita S. Khrushchev that technical talks begin July 1 in Geneva on methods of policing any possible future ban on nuclear tests.

The White House made public a letter from the President stating that the Swiss government had agreed to the Geneva talks, which Eisenhower said would be preferable to Moscow.

Khrushchev in agreeing to such talks, had suggested they be held in his own capital.

Eisenhower told the Russian Premier this government would not object to the inclusion of experts from Czechoslovakia and Poland on the Soviet side.

The Western Powers participating, he said, would be the United Kingdom, France, and possibly other countries in addition to the United States.

Eisenhower noted that Khrushchev has indicated the Soviet Union would not object to the inclusion of additional Western nations having experts in the field of nuclear test detection.

With respect to neutrals, Eisenhower told the Soviet Premier that "We have no objection in principle to their joining later in the discussions if it is agreed during the course of the talks that this is necessary or useful."

That might let such countries as India into the talks.

Eisenhower suggested that provision should be made for the talks to continue slightly longer than the three or four weeks which Khrushchev had suggested.

"These talks would be undertaken without commitment as to the final decision on the relationship of nuclear test suspension to other more important disarmament measures I have proposed."

Eisenhower's letter proposed that further details for the meeting be handled through normal diplomatic channels, thus terminating the top-level exchange of notes.

British Prime Minister Harold Macmillan, here to confer with Eisenhower, had been informed of the contents of the reply.

WASHINGTON (AP) — Secretary of State Dulles said today the United States probably would want international inspection posts within Communist China as well as elsewhere to police any agreement to ban nuclear weapons tests.

U.S. scientific experts have advised him that an adequate system would have to cover such areas as Communist China, Australia and the Sahara desert, Dulles told a news conference.

The meeting with newsmen came within an hour of the release of a letter from President Eisenhower to Soviet Premier Nikita Khrushchev proposing that technical talks on how to police a test ban begin July 1 in Geneva.

Scientists from the United States, the Soviet Union and four other nations would take part in the talks under arrangements agreed.

Finkbeiner endorsed the idea in a telegram and Ward gave favorable response in a letter, Hestand said.

Hestand said he did not ask Gov. Orval Faubus for his opinion since the third term governor already has made three appointments to the high Commission.

Dulles Declares

parently hearing final agreement. The other four would be Britain and France on the Western side and Czechoslovakia and Poland on the Soviet side.

Dulles said he had conferred with the experts who would represent this country at Geneva, all top-flight physicists, and told them their job was completely technical and not in any way political. The experts are Dr. Ernest O. Lawrence of the University of California; Dr. James Brown Fisk of Bell Telephone Laboratories and Dr. Robert F. Baker of the California Institute of Technology.

Dulles also told his news conference:

1. The United States will deal with anybody—including Communist East Germany—to obtain freedom for Americans who have been in a sense kidnapped. This was his answer when he was asked whether he would negotiate with the Red government in East Germany over the crew and passengers of a U. S. helicopter which strayed into Red territory. Dulles said no recognition of the East German regime would be implied. 2. Khrushchev apparently has asked the United States to grant Russia long-term credits so Russia can more successfully wage economic warfare against the United States. This was the case

on Friday afternoon June 6 with Mrs. L. D. Barnum as associate hostess.

Mrs. Kyler had charge of the program, "Flowers in the Church" and assisting with the program was Mrs. G. B. Hughes.

At the close of the meeting, Mrs. Stella Spraggins was given a miscellaneous shower.

Fifteen members and two guests were served delicious refreshments by the hostesses.

Business Is Better, Says Secy. Weeks

WASHINGTON (AP) — Secretary of Commerce Weeks today reported that recent business statistics "have looked better than at any time since the decline started last year."

"The field day of the hand-wringing pessimist is about over," Weeks said in a speech to the 3rd National Conference on Weights and Measures.

"If public confidence continues to grow, if business continues to spur the upturn, if government continues to keep away from gumming the works by unsound legislation, the economy should continue to improve."

Weeks acknowledged that the economy "still has some months to go before it recovers complete health," but added, "The outlook is bright for better times later on this year."

The secretary noted that business inventories were reduced by 800 million dollars in April. This suggests that many companies must soon go back to the market for new stocks, Weeks said.

He cited these other statistics: Steel mill operations have advanced from a low of 47 per cent of theoretical capacity in April to 61 per cent last week. Construction activity rose 10 per cent in May over April. Employment in May climbed 1,200,000 while joblessness dipped by 200,000.

Following for use at 11 a. m. est. In a related development, the Associated General Contractors of America, Inc., reported a majority of its chapters across the country have noted an improvement or a leveling-off of the business recession.

Results of a telegraphic survey indicated that building construction is normal or better in 57 of 83 areas reporting; that highway construction is normal or better in 50 of 59 areas reporting; and heavy construction is normal or better in 38 of 50 areas.

Steel Production Sets a New High

NEW YORK (AP) — Steel production last week set a new high for 1938 and mills have scheduled a further step up in operations this week.

The American Iron & Steel Institute today reported mills last week produced 1,695,000 tons of steel. This beat the previous 1938 high of 1,567,000 tons set in the previous week.

Mills have scheduled operations this week at a rate which would produce 1,723,000 tons, the institute said. This would still be under the rate a year ago, when 2,214,000 tons were produced. A month ago production totaled 1,412,000 tons.

The current upturn in steel operations is not unexpected. Leading steel executives predicted it at the recent annual meeting of the Institute. They also noted that production usually slips in the summer months.

Children's Colony Work Is Picketed

CONWAY, Ark. (AP) — Two Little Rock union laborers picketed the \$1,200,000 Arkansas Children's Colony project here and construction was halted.

He said 72 workers have been

Boston Does Fine While Playing on Home Field

By THE ASSOCIATED PRESS

Those Boston Red Sox are on a real tear, what with Jackie Jensen hitting home runs and a six-game winning streak and all. Trouble is, they've done it all at home.

It's when the Red Sox hit the road that they hit the skids. And they take off again a week from today.

After Monday night's 9-4 victory over Detroit, the Red Sox now are in a virtual tie for second place. They're just .003 percentage points behind Kansas City, and both are 7½ games behind the New York Yankees.

Baltimore defeated Cleveland 5-2, and a 7-1 fourth-inning lead by the Chicago White Sox was wiped out by rain at Washington in the only other games scheduled.

In the National League, Cincinnati took full charge of third with a 3-0 victory over first-place San Francisco in the only game scheduled.

The Red Sox, 18-10 (.643) in friendly Fenway Park and 5-14 (.261) on the road so far, got the job done in a six-run third inning triggered by Jensen's three-run homer. It was the big teller's fifth in seven games and 14th of the year, one behind AL leader BOB Cerv of Kansas City. He also trails Cerv's leading runs-batted-in total of 45 by one, after knocking in four Monday night while adding a double and single to the homer.

Frank Sullivan won his third against a lone defeat, giving up nine hits and blanking the Tigers on two over the last five innings. Paul Foytack (5-5) gave up seven.

He hasn't had a hit since, going 0-for-12, losing 25 points and tumbling back to .408, almost where he was when the spurt started.
